Anti-Static Grass

Play safe & comfortable, Stay clean

Static electricity issues occur in daily life

- Unexpected static shocks
- Unpleasant skin discomfort
- Dust attracted by static buildup

ASE® Technology

AATCC 134-2011, Simulation test by *Testings*

Neolite sole test	lower than 0.3kv
Leather sole test	0kv

Anti-static Protection, Safer to Touch

With ASE technology, static electricity instantly discharged, protecting children, pets and your family from sudden shocks.

Dust-free Surface, Lasting Clean Look

By eliminating static attraction, the grass fibers resist dust and stay vibrant, you don't need to maintain the lawn frequently.

Natural Appearance & UV Resistant

Designed with advanced fibers, the turf delivers a lush, natural look that closely like real grass. The turf is built to withstand Malaysia's intense year-round sunlight and heavy rain. The color stays rich and the fibers remain resilient, quite ideal for Malaysia climate.

Ideal for
